

I am writing you today to express my opinion on the proposed LPFM and how this would affect the radio station KLOVE that I listen to everyday, all day.

I, and many of my friends and family to not want to lose our radio station. We love this positive radio station that allows us to listen to Christian music with our children. This radio station is uplifting to many of the members of our community and it would greatly affect our daily life if it were forced off the air.

By allowing local programming you are not only bringing in a high quality radio station but you are also bringing in jobs and local events into our community that we would not have if it were not a local radio station.

I do not know all of the details of this decision, however, I ask that you not mess with a great thing and leave our FM broadcasters the way they are.

Thank you,

Deedra Jacob
